

The California State Games are Going Green!

This year the California State Games are **GOING GREEN** and we need your help to make this successful! Please support our **GREEN** vendors at the Opening Ceremonies along with using our **GREEN** services provided!

- Visit **Solar Solutions** at the Opening Ceremonies where you will be able to see how Solar Panels can help you become more environmentally friendly!
- **SDG&E** will be at the Opening Ceremonies. If you are an SDG&E customer, stop by the booth to request a no-cost Home Energy & Water Savings Kit which includes a low-flow showerhead and three faucet aerators. SDG&E staff will also be on hand to provide energy efficiency tips as well as distribute info on residential programs available to customers.
- **Pacific Home Remodeling** will be attending the Opening Ceremonies to show you what **GREEN** living is all about!
- Come to the Opening Ceremonies AND the Athlete Party to check out the **GREEN Cruiser Electric Bike**! We will be raffling off a **GREEN** Cruiser at the Athlete Party! A value of \$1500!
- Please help us go **GREEN** by using all the recycling bins provided for you at the Opening Ceremonies.
- Look for **Powerade** drinks at some of the sports venues and the Athlete Party! They are helping us go **GREEN** by providing some recycling bins!
- Also at the **California State Games**, we send out many of our invitations and thank you cards by email rather than printing them out on paper.

If you have any comments or suggestions on how to improve our **GREEN** efforts, please don't hesitate to contact CSG at 619-223-2033 or email at info@calstategames.org
